6 SEMESTERS

# Radiologic Technology

A degree in Radiologic Technology offers significant earning opportunities. According to data from the latest industry reports, the median salary for Radiologic and MRI Technologists in Georgia is \$76,020 per year, or \$36.55 per hour.

Radiologic technologists are responsible for performing diagnostic imaging examinations, while MRI technologists operate magnetic resonance imaging (MRI) scanners to create diagnostic images. Most Radiologic and MRI technologists hold full-time positions, reflecting the essential nature of their roles in medical diagnostics.

By completing the required credits for the Radiologic Technology program, graduates are well-prepared to sit for the national certification exam, paving the way to become skilled professionals in the dynamic field of diagnostic medical imaging.
